European Erasmus+ Project 'European Blended Learning and HDR Photography'*

**Training Project on Photography
'Postcards from Cortina'
Experimentation on HDRI Photography (High Dynamic Range Imaging)**

The project has the aim to train four deserving students of the Liceo Artistico of Cortina d'Ampezzo on the technique of the HDR digital photography. This project is inserted within the European Erasmus+ Project 'European Blended Learning and HDR Photography'.

By this project the students will get the possibility of:

- learning the HDR digital photographic technique employing digital photographic cameras under the guidance of the photographer Annamaria Castellan;
- shooting photos of areas and details of Cortina d'Ampezzo and surroundings;
- practising the HDR post-production of the images;
- using the outcomes to realize the 2016 calendar 'Postcards from Cortina';
- attending the webinars planned within the European project related to the in-depth analysis of the HDRI technique conducted by the European partners in English
- collaborating to the realization of a webinar in English inherent in the project 'Postcards from Cortina';
- taking part with one or more shoots in the photographic exhibition and catalogue of the European project, that will be held in Trieste in February 2016;
- taking part with one or more shoots in the final meeting of the European project in Portugal in May 2016.
